

Visit us at: www.colins.in.ua

Dear friends and colleagues!

We are pleased to inform you that the 7-th International Conference on Computational Linguistics and Intelligent Systems (CoLInS2023) will take place in **online mode** on April 20-21, 2023 at National Technical University “Kharkiv Polytechnic Institute” (Kharkiv, Ukraine).

We would like to invite you for the event. The registration is already available at [Easy Chair](#) and at the [CoLInS site](#).

If you are interested in computational linguistics and intelligent systems and you'd like to share your own developments this conference is for you.

Important dates are as follows:

Paper Submission deadline: 1 March 2023

Notification of acceptance: 22 March 2023

Notification for camera-ready: 5 April 2023

Conference: 20-21 April 2023

Workshops

This year the CoLInS is planned to be conducted in the form of several workshops dedicated to each subject area.

Such format was selected as one of the most effective way to host a great number of the attendants in online mode.

The **preliminary list** of the workshops is as follows:

WORKSHOP 1. COMPUTER LINGUISTICS

WORKSHOP 2. INTELLIGENT SYSTEMS

STUDENTS' WORKSHOP

Please, kindly note that the number of the workshops may change and will definitely depend on the number of papers accepted for the conference.

Students' workshop

The Organizing Committee invites the students and PhD students to join the students' workshop which will be dedicated to the subject areas mentioned above.

All the papers by the students and/or PhD students shall be submitted at colins.in.ua@gmail.com.

Paper preparation

This year CEUR-WS.org publisher **has changed the requirements to the authors** of the papers to be submitted for the conference. So, we had to make changes in our paper selection criteria.

The CEUR-WS.org requirements concern the authors' DBLP publications (<https://ceur-ws.org/HOWTOSUBMIT.html#FAQ-DBLPFOOTPRINT>)

In this regard **we kindly ask each participant to study actualized [paper selection criteria](#)** when preparing your submission.

The paper format and style shall be as per [CEUR template](#). An example of paper formatting together with short explanations can be downloaded [here](#).

The minimum size of the paper is 10 pages, except for invited papers (represented by key-note speakers).

All papers shall be submitted in PDF format using direct [Easy Chair](#) or via Conference site <http://colins.in.ua/call-for-paper/>.

Paper publication and indexing

All the papers (except for students' ones) that have been rigorously peer-reviewed and thoroughly evaluated by the Program Committee are submitted for publication to [CEUR-WS.org](#).

All previous papers published in CEUR-WS.org proceedings have been indexed in [Scopus](#), [Web of Science](#), [DBLP](#) and [Google Scholar](#).

We are pleased to propose for your kind consideration the [proceedings and materials](#) of the previous CoLInS conferences.

Conference fee

The conference attendance for participants from countries other than Ukraine will be 20 Euro. Attending the student's workshop is free of charge both for Ukrainian and non-Ukrainian participants. The payment details will be provided in next information letters provided that the submission will be accepted by the Program Committee.

Additional Information

For more information on the conference and paper submissions, kindly visit the conference site <http://colins.in.ua/> or send us e-mail by colins.in.ua@gmail.com.

We are in social media

To get in a close touch with the subject area of the conference we propose you to visit our [YouTube channel](#) where you can find the video presentations of previous CoLInS sessions.

With [Facebook](#) you will stay informed about the latest news and online translations of the CoLInS sessions.

We are also available at [LinkedIn](#).

Welcome to the CoLInS conference!

Greetings,

CoLInS 2023 Program Committee

and

CoLInS 2023 Co-Chairs

Prof. Nataliia Sharonova

Prof. Vasyl Lytvyn
